**Note for segment wise information:**

Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision makers, in deciding how to allocate resources and assessing performance. The Group's chief operating decision makers are the Chief Executive Officer and the Chairman and Managing Director.

**Segment wise capital employed**

Segregation of assets (other than trade receivables), liabilities, depreciation and amortization and other non-cash expenses into various reportable segments have not been presented as the assets and liabilities are used interchangeably among segments and the Group is of the view that it is not practical to reasonably allocate the other assets, liabilities and other non-cash expenses to individual segments and had been allocated to the most meaningful.
