

ED arrests Delhi-based businessman in money-laundering case

PRESS TRUST OF INDIA
New Delhi, May 9

THE ENFORCEMENT DIRECTORATE (ED) has arrested a Delhi-based businessman in a case linked to alleged laundering of funds, worth ₹1,146 crore, by forging airway bills of reputed companies in the

The case is linked to alleged laundering of funds worth ₹1,146 crore

India. The ED informed the Hyderabad police about the alleged illegal activity that led to the registration of an FIR in September last year. The agency filed its case under criminal sections of the PMLA on the basis of the police FIR.

Tackling power crisis: NTPC to run two stressed plants on O&M basis

DEEPA JAINANI
Lucknow, May 9

The two plants, to be handed over to NTPC, would add a cumulative 2,200 MW of power to the grid

STATE-RUN NTPC WILL run two stressed coal-fired thermal power plants that are currently under liquidation. The two plants, SKS Power and Meenakshi Energy, would add a cumulative 2,200 megawatt (MW) of power to the grid.

According to sources, the resolution professional will hand over both the plants to NTPC, which will operate them on an operations and maintenance (O&M) basis for a fee.

While the SKS Power Generation is a 1,200-MW thermal plant in Chhattisgarh, which operates on domestic coal, the 1,000-MW Meenakshi Energy plant in Andhra Pradesh is an imported coal-based project. Both the plants are currently under the National Company

how in the sector, to acquire and operate such stressed assets, sources said.

The SKS Power project had entered into a power purchase agreement (PPA) with Chhattisgarh State Power Trading Company to supply 5% of the net energy generated at the plant at energy charges, and had also secured short-term PPAs with a few other discoms.

It had also entered into a medium-term PPA with Noida Power Company, but had failed to enter into any long-term PPA, due to which the plant could not source linkage coal. As a result, it was sourcing coal through e-auction and from the open market, which led to cost escalation and uncertainty. In fact, the lack of PPAs and other structural issues has led to many power projects defaulting on loan repayment obligations.
